1.

What does „Nature reclaims everything“ mean for you?

Can you name examples from your own experience?

2.

In your opinion, how do we humans affect Nature in our immediate environment?

Are these effect positive, negative or perhaps both?

3.

What could be the longterm effects if the habitats of certain animals are destroyed?

How could that influence our own quality of life?

4.

What does „ecologically sustainable“ mean for you?
Can you give examples for ecologically sustainable and not ecologically sustainable actions?

5.

How can you personally contribute to protecting nature and the environment? What steps can you take in your daily life?
